

2026 ATLANTIC EMERGENCY MANAGEMENT CONFERENCE

Strengthening Roots

About the Conference

The Atlantic Emergency Management Conference (AEMC) 2026 will take place October 20–21 at the Membertou Trade & Convention Centre in Membertou, Nova Scotia. This year's theme, Strengthening Roots, speaks to the importance of grounded, community-led emergency management. Hosted by the Atlantic First Nations, our 2026 conference will provide space to share knowledge, strengthen regional collaboration, and support the people working in emergency preparedness and response.

Why Become a Sponsor?

- Contribute to conversations on emergency management.
- Provide a platform for professional development.
- Build relationships through face-to-face networking opportunities.
- Showcase your products, services, and projects.
- Increase your company or organization's profile.
- Support those working to strengthen emergency management capacity.

Your Impact as a Sponsor

All AEMC 2026 sponsorship funds will be used to support meaningful participation in the conference. This includes need-based travel scholarships for youth interested in emergency management careers, with a priority placed on supporting Indigenous youth. By reducing cost barriers, your sponsorship helps young people connect with mentors, explore career paths, and build lasting relationships. Funds will also support the after-hours event – an opportunity to celebrate front-line workers and emergency management professionals.
